

CANCELLATION NOTICE

LF 485, Quarterly Facility Self-Inspection Checklist (Industrial Work Area) (Rev. Nov. 2006)

Cancelled effective 08-30-07.

LF 485, Quarterly Facility Self-Inspection Checklist (Industrial Work Area) (Rev. Nov. 2006), was the tool used by Facility Coordinators and Facility Safety Heads to conduct quarterly industrial work area self-inspections for OSHA compliance. This form is no longer required because the implementation of LF 153, Supervisor's Monthly Safety and Health Audit Checklist (Industrial Area) (Rev. August 2007) covers the information that was addressed on this form. Because inspections are done on a monthly basis by supervisors, use of LF 485 to conduct quarterly self-inspections was found to be a duplication of effort. The form is obsolete and is officially cancelled.
